

Hamlet Police Department
Citizen's Academy Agenda 2018

The goal of the Citizens' Academy is to provide citizens with information through education and to increase rapport between the police department and the citizens of Hamlet.

The Hamlet Police Department feels that exposing citizens to knowledge about police work would help them to better understand and relate to police involvement in the community.

We added a youth Explorer Post to our department in February of this year and intend to continue to add programs that will keep our citizens positively engaged and interested in our field of work.
